GAP YEAR OPPORTUNITY ALL EXPENSES PAID!!

Challenge Team UK trains young adult presenters and sends them to schools in teams with a prepared presentation. The Team explains why saving sex for marriage is so important and invites pupils to consider making the same decision themselves. Practising chastity is presented as a realistic and positive option. The presentation is sincere, interactive, funny, and has no religious references. A Team consists of two young men and two young women between the ages of 18 and 28.

Challenge Team UK recruits presenters for their National Tour from September to March each academic year. There is no charge to join a Team and all expenses are paid while touring, including travel to and from home. In addition, each team member receives £20 per week to help with spending money.

Team members travel together in a vehicle which is provided by Challenge Team UK. The itinerary is prepared in advance and the Team travels from school to school staying overnight with host families nearby.

BECOMING A PRESENTER WITH CHALLENGE TEAM UK IS EXCITING, REWARDING AND CHEAP.

Applicants should be:

- Committed to the lifestyle choice of saving sex for marriage (not all presenters are virgins, but have since decided to save sex for marriage)
- Good communicators, good relationally
- Good team players with leadership potential
- Able to supply good references

Before each tour the presenters attend an intensive preparation programme when presentations are prepared and rehearsed and the details of scheduled itineraries explained.

Each Team spends the Autumn term based in Manchester, the North West & Scotland. The Spring term is spent touring the Midlands, East, and South of the UK, including London. School holidays are spent at home. Weekends are often free, but occasional Saturdays are needed for youth groups, and occasional Sundays are needed to travel to the next place. Otherwise, Team members can make their own arrangements.

Previous team members comment: *'Awesome experience! Great message we were getting across to the young people. I loved touring around the UK going to lots of different places. It made me grow in confidence a lot. I loved it when the young teens took hold of our message.'*

Between 2004 and 2009, 36 young adults have volunteered as team members and over 87 500 teenagers have witnessed a presentation.

If you want the opportunity to speak to thousands of young people about a life changing message, look no further...

Enquiries can be made by email (info@challengeteamuk.org) and application forms are sent out. Following application, interviews are held and start and finish dates agreed.
